# Bithumb-Analysis

Abstract—Bithumb-Analysis

1. Introduction
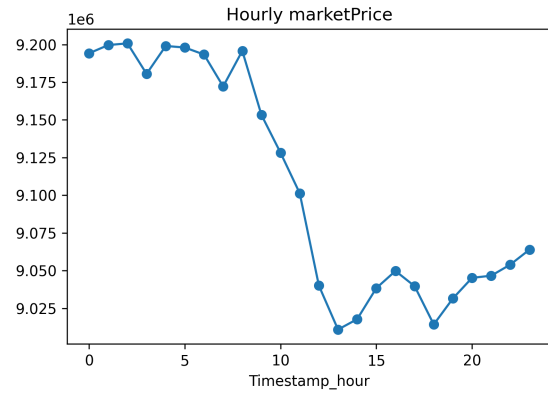

2. Data
2.1. Market Price

Market price tends to decrease over time.

### 2.2. Daily market price and transaction count

2.3. Hourly market price and transaction count

The market price is relatively high in the morning, and the market price tends to drop in the afternoon. Conversely, transaction counts tend to be low in the morning and high in the afternoon. Therefore, transaction count and market price are inversely proportional.

2.3. Minute market price and transaction count

Transaction count per minute

- Minute transaction
- Minute sell transaction
- Minute buy transaction
